Economics : Macroeconomics/Monetary Economics/Financial Economics

Kamaiah, B., Shylajan, C.S., Seshaiyah, S.V., Aruna, M., Mukherjee, S. (Eds.)

# Current Issues in Economics and Finance

- Showcases several empirical techniques that enhance the quality of research and its applicability for policy analysis
- Covers a wide range of contemporary macroeconomic issues presented in diversified themes
- Contains contributions from researchers and academicians from various premier institutes

This book discusses wide topics related to current issues in economic growth and development, international trade, macroeconomic and financial stability, inflation, monetary policy, banking, productivity, agriculture and food security. It is a collection of seventeen research papers selected based on their quality in terms of contemporary topic, newness in the methodology, and themes. All selected papers have followed an empirical approach to address research issues, and are segregated in five parts. Part one covers papers related to fiscal and price stability, monetary policy and economic growth. The second part contains works related to financial integration, capital market volatility and macroeconomic stability. Third part deals with issues related to international trade and economic growth. Part four covers topics related to productivity and firm performance. The final part discusses issues related to agriculture and food security. The book would be of interest to researchers, academicians as a ready reference on current issues in economics and finance.
