## Engineering : Wireless and Mobile Communication

Zungeru, A.M., Subashini, S., Vetrivelan, P. (Eds.)

# Wireless Communication Networks and Internet of Things

## Select Proceedings of ICNETS2, Volume VI

- Covers key developments in electronics and communication engineering
- Includes the latest research from the field of wireless communication networks and Internet of Things
- Offers contributions from top researchers and experts

This book is a collection of papers from international experts presented at International Conference on NextGen Electronic Technologies (ICNETS2-2016). ICNETS2 encompassed six symposia covering all aspects of electronics and communications domains, including relevant nano/micro materials and devices. Presenting recent research on wireless communication networks and Internet of Things, the book will prove useful to researchers, professionals and students working in the core areas of electronics and their applications, especially in signal processing, embedded systems and networking.
