# Communication and Intelligent Systems

Proceedings of ICCIS 2019

Series: Lecture Notes in Networks and Systems

- Presents research work on novel methods in communication and intelligent systems
- Covers the most important challenges, issues, and advances in intelligent systems
- Offers a valuable reference guide for research scholars, scientists, and postgraduates from various engineering and related fields

This book gathers selected research papers presented at the International Conference on Communication and Intelligent Systems (ICCIS 2019), organised by Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur, India and Rajasthan Technical University, Kota, India on 9–10 November 2019. This book presents a collection of state-of-the-art research work involving cutting-edge technologies for communication and intelligent systems. Over the past few years, advances in artificial intelligence and machine learning have sparked new research efforts around the globe, which explore novel ways of developing intelligent systems and smart communication technologies. The book presents single- and multi-disciplinary research on these themes in order to make the latest results available in a single, readily accessible source.
