Green Transformation and Development

Series: The Great Transformation of China

- Provides an English guide to Chinese environmental policies
- Offers insights into the ways in which environmental mandates are enforced in China
- Explores the different ways that centralized planning can tackle climate change in a comprehensive way

This book offers an insiders' view into Chinese plans for a green transformation of the economy of China. Analyzing the pressures, drive, and resistance to this green transformation in China, the book explores the key fields, from green finance and green banking to green consumption and green urbanization. Furthermore, it offers a guide on how government officials will be penalized or rewarded for their successful furtherance of green objectives. This book will be of interest to climate activists, China watchers, architects, and all those invested in a sustainable future.
